

New Options with rusailing

Our **Optimum Class** option. Move your training and overall experience to a whole new level. The Optimum Class has been designed through popular demand for those who want the very best from their time with us. With this option, we will guarantee you an experienced Instructor, maximum 3:1 ratio and a private double cabin. The extra privacy, attention and sheer time to learn and gain experience all go together to give a greatly enhanced experience.

Also new, why not try our **Experience Weeks**? Ideal for those wanting to gain experience but perhaps not wanting to complete a structured RYA course. If you're considering making the move from Competent Crew to being a Day Skipper or increasing your skills up to Coastal Skipper levels or further, but aren't quite ready for the step then these weeks will give you a handy helping hand. Building mileage, sea time, general experience and of course being tutored to the level you expect will not only help with the next step but it will also make the resulting qualification be of a much higher standard! And that's guaranteed.

Our **Long Distance Cruising Options** were a phenomenal success last year and we will be repeating the adventures again this year for sure. See our separate newsletter coming soon for details of our exciting mileage building adventures planned for throughout the year! Striking out from our base in Lagos with trips planned to Seville, the Spanish Ria's and the Canaries or Balearics, there's a thrilling option for everyone.

As well as all the familiar 5 day RYA courses, we continue to offer the Basic Navigation Course, Start Yachting Course, VHF Short Range Certificate and First Aid Courses, Diesel Engine and Radar courses

And finally... after resounding success and extremely positive feedback from each course, all of our other non-RYA options will also continue to be available!

- PSP - Performance Sail Package
- DWP - Downwind Package
- Marina Handling and Berthing Masterclass
- Regatta Training and Team Entry

Email us at jules@rusailing.com We look forward to hearing from you.

Fair Winds and Safe Sailing!
